SUBJECT: 2011 Request for Application (RFA) to designate an eligible entity in Alameda County (2011-RFA-24) Notice

The RFA process did not identify a qualified, nonprofit organization to designate as an eligible entity. Therefore, in accordance with Public Law 105-285, Section 676A (c):

If no private, nonprofit organization is identified or determined to be qualified under subsection (a) to serve the underserved area as an eligible entity the chief executive officer may designate an appropriate political subdivision of the State to serve as an eligible entity for the area. In order to serve as the eligible entity for that area, the political subdivision shall have a board or other mechanism as required in section 676B (b).

CSD will move forward with contacting the County of Alameda to discuss the next steps in designating a Community Action Agency.
